COMMERCIAL AND FINANCIAL

Wheat Market on a Small Boom on Good Cash Demand.

CORN GOES UP WITH IT A NOTCH BETTER

Increase in Demand for Cereats Caused by Continued Heavy Foreign Demand-Provisions Featureless.

CHICAGO, Oct. 7.-The cash situation was the feature in wheat today. Strong outside cash markets and sales for export here and at the seaboard were the main factors in an advance of 3-8912c, which marked the close. Corn was firm helped by wheat on a good shipping demand and closed 1-8c higher. Oats were steady and closed unchanged. Provisions

show little change.

Liverpool gave the tone to the early trading in wheat. That market surprised the bears by showing 3-8d advance at the start. As the local market had failed to advance yesterday, a decline in the Eng-lish market was looked for by a good many and the contrary being true, the more timid shorts covered at once. The result was an opening advance of 3-5c in result was an opening advance of 3-8c in December, that option starting at 627-328 63c. All forenoon the market showed strength, shorts being more or less prominent, while a good deal of quiet investment buying was done. Plenty of bull news drifted in during the morning to encourage buyers. Northwest receipts were moderate, Minneapolis and Duluth reporting 1,019 cars, against 1,236 last week and 1,126 a year ago. Chicago receipts were 262 cars, 14 of contract grade. Foreigners were good buyers here and at New York both for October shipment and later delivery.

were 262 cars, 14 of contract grade. Foreigners were good buyers here and at
New York both for October shipment and
later delivery.

Cash sales here were about 150,000 bu.,
including 50,000 bu. No. 1 northern direct
to Rio Janeiro for mixing with South
American wheat. Atlantic port clearances
were very heavy, amounting to 553,000 bu.
in wheat and flour. The Modern Miller
reported the flour output large with a good
export demand. Primary receipts were
1.117,000 bu. This amount was about 200,000
bu, heavier than a year ago. Argentina
shipped no wheat to Europe this week,
but sent favorable reports on the growing
crop. The market here was at its strongest around noon. The seaboard reported
export sales of at least sixty loads. This
evidence of the continuation of the recent
heavy foreign demand for American wheat
was responsible for a considerable increase in the demand which was augmented by the strength of cash wheat in
outside markets, notably New York and
Minneapolis, and the highest price of the
day was reached. December being bid up
to 63 3-5g-63-2c. This was nearly le above
yesterday's closing price and showed a
good deal of realizing in the last hour of
the session. Prices dropped somewhat under this, although offerings were well
taken. December finally declined to 63c,
closing steady at that.

Corn, though dull, was slow. The advance was almost entirely in sympathy
with wheat as the late decline in that
market was followed by corn, nearly all
the early advance being lost. Independent
bullish Influences were an improved cash
demand and large seaboard sales for export. Country advices were to the effect
that the crop had been impaired in some
places. Receipts were 83 cars, December
ranged from 25%c to 301-8c and closed
1-Sc higher.

There was quite a good general demand
for outs and prices most of the day were

was quite a good general demand There was quite a good general demand for oats and prices most of the day were slightly higher. Cash demand was better at improved prices. Clearances were liberal-479,000 bu. The market sympathized with the late decline in wheat and corn to the extent of losing all its small early advance. May ranged from 22 7-80 to 23/23 1-80 and closed unchanged at 27-80 bld.

Provisions were extremely duil. The

227-8c bid.

Provisions were extremely duil. The market was heavy at times, due to the gravity of yellow fever reports, but shorts with profits always came and in the end there was little change in prices. The range was narrow. January pork closed 1½c lower at \$8.92½, January lard a shade lower at \$4.65.

Estimated receipts Saturday: Wheat, 269 cars; corn, 700 cars; oats, 410 cars; hogs, 15,000 head.

The teading futures ranged as follower.

The leading futures ranged as follows:

OPERATIONS IN STOCKS AND BONDS. Industrial Specialties Resume a Nor-

Mal and Quiet Tone. NEW YORK, Oct. 7.—The stock market ontinued narrow and wholly professional oday and even the industrial specialties which have shown violent fluctuations and which have shown violent fluctuations and feverish activity for some time past fell into comparative quietude. The industrials, nevertheless, continued to occupy the most prominent place in the trading. The movement of prices in this group was conflicting in the early part of the trading, but the reactionary tendency had the upper hand in most cases and wiped out nearly all of the earlier gains.

Sugar was less active than of late, but ruled above yesterlay's level most of the day and rallled a point from the lowest in the late dealings in face of the continued heaviness of the general market. Metropolitan was advanced early to 167, but broke in the late dealings to 163½. People's Gas and Brooklyn Rapid Transit also enjoyed their period of strength, but succumbed in the late dealings, the latter showing a net loss of 13-8. Tobacco, Consolidated Gas, Cleveland, Lorain and Wheelting preferred, Reading first preferred, Pacific Coast improvement and a number of other specialties were notably weak.

In the railroad list the most notable feverish activity for some time past fell

number of other specialties were notably weak.

In the railroad list the most notable feature was the continued large offerings of Northern Pacific and the poor absorptive power of the stock shown by the market. The opening was at a decline of 7-8 in spite of the fact that it was the one American stock that showed an advance in London. The price declined at one time 1½ and railied only feebly. Some effort was apparent to support the price at times, which was attributed to German holders but the burden of liquidation was too heavy. Union Pacific sympathized and the preferred stocks of both companies were heavy. The declaration of the regular dividend on Northern Pacific preferred was an incident of the day.

Northern Pacific preferred was an incident of the day.

There were rumors in connection with the decline of Northern Pacific common of a serious difference amongst inside interests over questions of policy, these interests holding a very influential position toward the whole transcontinental situation. There is fear that further conflicts over transcentinental business will be involved in the outcome. Next to the Pacifics the grangers were most notably affected. The failure of this group to respond to the very favorable earnings shown by recent statement has also invited realizing. Rates for time money were easier today and mercantile paper is also tending to a lower basts with a very little supply in the market. The shipment of currency to the interior during the week has offset imported specie and tomorrow's bank statement is expected to show a further large gain in cash reserves. The reactionary tendency developed in parts of the bond list after early firmness. There were sharp gains in Wisconsin Cen-The reactionary tendency developed in parts of the bond list after early firmness. There were sharp gains in Wisconsin Central 1sts and Susquehanna & Western general 5s. Total sales, \$3,155,000.
United States 2s advanced 7-8, 3s, when issued, 3-8, the old 4s, registered, and the new 4s, coupon, ¼, and the new 4s, registered 1-8.

The Evening Post's London financial cablegram says: The stock markets here were quiet and duil today, politics and the monetary position in Berlin being the chief factors. The latter especially affected American rails, notably Pacific stocks, and the close in this market was at about the lowest. Argentines, Spanish 4s and other foreign securities were generally flat. The decline in consols is said to be partly due to the Bank of England borrowing on them. If so, it is very important as affecting the future of the money market here. The September trade returns are decidedly satisfactory. The London discount rate is 311-16, due to the monetary situation in Germany. The best opinions favor a rise in German bank rates on Monday, but considerable doubt is expressed. Such a movement would probably be followed by a rise in the rate here. The situation in Germany. The best opinions favor a rise in the rate here. The situation in Germany the really serious, but it may entail considerable slow liquidation. The issue is announced tonight of the large Havana Tobacco company, mentioned recently in these dispatches. The share capital is £500,000.

ket to give it a little breathing spell after the excessive receipts of Monday. Tuesday and Wednesday.

There was very little beef among the day's arrivals, and such cattle as were available for killers were fully steady. Good kinds of beef steers might even be quoted as strong. Anything in the way of good grass beef was in strong demand and as was noted yesterday that kind of cattle is selling as high as any time this soason.

Very few cows and heifers were in the yards and not enough to cut much figure in the day's transactions. The market did not show any material change from yesterday as regards values.

The feeling in the feeder division was somewhat improved. The market on the better grades of stockers and feeding cattle has recovered somewhat from the effects of the heavy offerings the first half of the week, but it is still lower than last week. Even afer such improvement as has taken place in the two days it is safe to say that the medium to common kinds of feeders are all of 20c lower than last week. Holders of common yearlings complained that they were almost unsalable at any price, no one appearing to want that kind. The most of the cattle in the yards sold in reasonable season and a good clearance was effected. Representative sales:

HOGS-The break in values this week
was reflected in today's very light receipts
of hogs, only forty-eight cars being reported in the yards, which was the smallest number for any day in over two weeks.

SHEEP—The arrivals of sheep were quite liberal today, but none too large to meet requirements of the market. The demand was good and the market active at steady prices. There has been very little change in the market for sheep and lambs this week, values at this point being about sta-tionary. The demand is of large proporwiek, values at this point being about stationary. The demand is of large proportions right along and receivers have experienced no trouble in unloading at satisfactory prices. Feeding and stock sheep continue in active demand and are selling readily at firm prices. Quotations are: Good grass westerns, \$1.004.40; good yearlings, \$4.5594.25; good to choice lambs, \$6.0095.25; fair to good lambs, \$4.3095.00; feeder wethers, 2-year-olds and over, \$1.504.00; feeder yearlings, \$4.0064.15; feeder lambs, \$4.2594.85; culls, \$2.5093.00. Representative sales; No.

Demand for Hogs Improves and Prices

Are Stronger. CHICAGO, Oct. 7.—CATTLE—About twothirds of today's cattle offerings were western rangers. A good many cattle were carried over from yesterday, so there was quite a large supply for so late in the week. The demand was as poor as it pos-

canners and butcher natives; Bologna bulls cold at \$2.25 and export bulls at \$3.75 at 1.25.

HOGS—There was a decidedly better demand for hogs and prices ruled stronger to a nickel higher for desirable offerings; common packing hogs again sold badiy, the best demand being for good butchering lots. The bulk of the sales took place at \$3.5003.07.1%, hogs selling at an extreme range of \$1.3023.80 and pigs selling largely at \$1.0023.50.

SHEEP AND LAMBS—There was a good general demand for sheep and lambs at a further advance. A flock of about 150 prime native lambs brought \$7.15; western range lambs sold at \$4.7024.90; sheep sold at \$2.50 \text{ 33.500.80 for slnughtering lots and great numbers of feeding lambs sold at \$4.7024.90; sheep sold at \$2.50 \text{ 33.500.40 for the poorest to \$4.2565.50 for good to choice natives, range flocks selling at \$3.5004.40; feeding sheep sold in large numbers at \$4.0024.20.

RECEIPTS—Cattle, 3.000 head; hogs, 22,000 head; sheep, 5,000 head.

Kansas City Live Stock. Kansas City Live Stock.

grassers, nominal.

New York Dry Goods Market.

New York Dry Goods Market.

NEW YORK, Oct. 7.—Outside of the print cloth situation no detail on the dry goods market aroused more than passing attention. The sale of about 25.000 pleces of extras at Fall River at 15-like was not altogether unexpected, but it was dispiriting to operators in the market. Seliers of print cloths had held out for a long time against bids at this figure, but were at last compelled to succumb to the pressure exerted by buyers. In the local market the demand for cotton goods has been on a limited scale. There was no improvement in the market for export brown goods. The China trade is still uncertain and other markets were light buyers. Prints were unchanged in the main.

NEW YORK, Oct. 7.—COFFEE—Options opened steady at unchanged prices to 5 points decline, ruled fairly active, with generally weak undersons under liquidation, following weak cables and stack demand

choice, 9c; fancy, 94c. Prunes, 4984c. Apricots, Royal, 11613c; Moor Park, 129 16c. Peaches, unpeeled, 769c; peeled, 126

WORK THE ENTIRE COUNTRY Manhattan Realty Company Does . Prosperous Business Fishing for Suckers.

NEW YORK, Oct. 7 .- Developments in the case of the so-called Manhattan Realty company show that the operations of the men behind that concern had extended all over the country, with this city as a base. The police say that at times the promoters would engage in legitimate business and thus acquire a standing. In the Center street court Charles Spencer, Joseph B. Hart, Alexander McCauley and Stephen C. Moen were remanded for examination. Later Moen was brought out and held in \$1,500 bail. At the hearing enough was developed to show the interesting methods of the Manhattan Realty company. The company had handsome offices at 11 Broadway. It also had places, under another name, at Twenty-sixth street and Broadway and in the St. James building at 19 Fulton street. The shrewd operators also had branches in Chicago, St. Louis, San Francisco and other western cities, and anyone asking for references in any part of the country was referred readily to a concern that would emphatically endorse their integrity, by wire or telephone. The old discretionary pool game was a strong favorite and wonderfully successful. The company sent out circulars, principally to farmers, stating that it had "an inside tip" on the grain market and would take customers in on the deal for deposits anywhere from \$50 to \$1,000. No partner in the deal could invest more than \$1,000. Another plan was to advertise for partners in a lucrative business. Of course money was needed, and once that was received in most cases the lucrative business would disappear.

Flood of Counterfeit Bills. SAN FRANCISCO, Oct. 7.—The officers, aided by Chief Lees, have discovered that large numbers of counterfeit dollar silver certificates have been produced in this city. The operators are reported to be under police surveillance. The Call asserts that 5,000 of the spurious bills were sent into the Klondike district. They were readily exchanged for golddust and their falsity was not discovered until the returning miners tried to pass them in Portland. The banks of this city, following the precedent of the institutions in the north, have refused to handle any bills of that denomination. The paper is said to be of government make, as are also the various inks, with the exception of that with which the number is printed. This is of an ordinary quality and cannot withstand the action of acid.

Much Needed Rain in Kansas. WICHITA, Oct. 7.—The first rain for a month fell this morning and still continues. Fall pasturage and winter wheat were sorely needing the moisture.
